## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-16 and 19, drawn to monoclonal antibodies specific for estrogen receptor- $\beta$ , and kits comprising said monoclonal antibodies, classified in class 530, subclass 387.1.
  - II. Claims 17 and 18, drawn to methods of detection of estrogen receptor- $\beta$ , classified in class 435, subclass 7.1.
2. The inventions are distinct, each from the other, for the following reasons:

Inventions I and II are drawn to different classes of invention, one is a product and the other is a method. Additionally, the two invention groups are separately classified, necessitating separate searches. Inventions I and II are related as product and process of use. However, the inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, the monoclonal antibodies of invention group I may be used in *in vivo* methods of treatment, because the estrogen receptor transmits the growth promoting signal of estrogen. Such *in vivo* methods of treatment are materially different processes of using the product of invention group I.

Art Unit: 1642

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the Office should be directed to Anne Holleran, Ph.D. whose telephone number is (703) 308-8892. Examiner Holleran can normally be reached Monday through Friday, 9:30 am to 2:30 pm.
